**INFORMATIONAL
DOCUMENT**

**DOCUMENT NO. 802, Rev A:
MODEL DESIGNATION CHANGE
FOR PORTABLE EVAS MODELS 107P-XXX-X**

Effectivity: (1) **EVAS Model 107P-XXX-X**
(2) **Effective Date – January 10, 2008**

Description:

This notification is for all owners of portable EVAS models 107P-XXX-X (where -XXX refers to any combination of three numbers; -X is an alpha character). Beginning January 10, 2008, the alpha character at the end of the model number will be eliminated on all new portable EVAS units. The model numbers will be designated as 107P-XXX. The -XXX portion of the model number will not change.

In addition, new EVAS units will no longer be engraved with the aircraft model name on the EVAS containers. Instead, the engraving will reference the EVAS Model Eligibility List which can be found on the Certification Page of our website, www.visionsafe.com. A copy of the EVAS Model Eligibility List for portable models, sorted in EVAS model number order, will be enclosed with each new and serviced unit.

At the time of the 120 month overhaul, any unit engraved with model number 107P-XXX-X will be re-assigned and re-engraved with the new model number and the eligibility statement.

Action Required:

No action is required on the part of the customer/operator.

However, if an existing customer/operator would like to have their unit re-engraved to reflect the new model number and eligibility statement prior to the 120 month overhaul, the request should be made on the work order form submitted by the customer/operator when the unit is sent in for service. Please contact VisionSafe Service Department at 808-235-0849 ext 10, or via email at bus.services.ar@visionsafe.com, for fee information for this service.

If you have any questions concerning this information, please contact VisionSafe Quality Assurance Department at 808-235-0849 ext 22, or via email at qcontrol@visionsafe.com.
